

Coding and Users of Technology at St. Michael's

“We are coders and effective users of technology...”

At St. Michael's CE Primary School, we endeavour to provide a high quality computing and coding curriculum that inspires all of our pupils to succeed and excel in this technological age. With the use of applications and devices, pupils develop their ability to safely connect with others; communicate ideas; collect, organise and manipulate data effectively and develop their competence in coding for a variety of practical and inventive purposes.

Aims

- For our children to become confident, life-long users of technology.
- For our children to develop the ability to safely communicate with others using a range of applications and devices.
- For our children to enjoy using technology for a range of purposes.
- For our children to apply their competence in coding for a variety practical and inventive purposes.
- For our children to effectively collect, organise and manipulate data using a range of

Compulsory language of computing:
